

Application

```
graph TD; Application[Application] --- SageBox; subgraph SageBox [Sage]; SageFiles[SageFiles] --- SageFS[SageFS]; SageFS --- Translator[Translator]; Translator --- BackendStore[Backend Store]; end; Application --- SageFiles; Application --- SageFS; Application --- Translator; Application --- BackendStore;
```

The diagram illustrates a system architecture. At the top is a yellow box labeled 'Application'. Below it is a dashed-line box labeled 'Sage' on the right. Inside the 'Sage' box are four stacked components: 'SageFiles' (light purple), 'SageFS' (purple), 'Translator' (green), and 'Backend Store' (blue). A vertical line connects the 'Application' box to the 'SageFiles' box. Additionally, diagonal lines connect the 'Application' box to the 'SageFiles', 'SageFS', 'Translator', and 'Backend Store' boxes.
